

OFFICE OF
THE SECRETARY OF STATE
WASHINGTON

January 8, 1977

Sir:

Enclosed are the "Soviet Strategic Forces" reports which were delivered to the Department early this morning.

The blue ~~book~~ is the Team A report (prepared by the Agency's in-house experts) covered by a note from Bush deploring the leaks that have been generated by this experiment competitive analysis.

The gray book is the Team B report prepared by the "outside" experts. This is a bootleg copy which you, in theory, are not suppose to see and it is the only copy in this building.

Jock
